Alaitihad Herbs Company was founded which works in the import and export of medicinal and aromatic products. The company's farms are located in the most fertile areas in Egypt with all the techniques of production, handling, grades and quality control available

**Quality**

The company system is distinguished by considering all the conditions necessary for food safety and quality. Each type of produce offered to consumers can be traced back to its source for maximum safety. Pharaonic Bioherb "approved" criteria is our internal guidance and guarantee to supply best quality above and beyond the norm with authentic taste and flavor that our customer describe
