With a flexible and scalable business model, Evasya Trading & Exports aims to support global buyers with dependable supply, efficient coordination, and long-term trade partnerships.

WHY PARTNER WITH US?

Partnering with Evasya Trading & Exports Pvt Ltd means gaining a reliable gateway to India's finest agricultural treasures through a transparent, quality-driven supply chain. Based in the heart of Kerala's spice-growing regions, we eliminate the complexities of international sourcing by working directly with local farmers and producers to ensure every shipment—from our premium 8mm+ bold cardamom to our high-piperine black pepper—meets stringent global standards.

Our approach combines deep regional expertise with a rigorous commitment to compliance and efficient logistics, offering global buyers a flexible, scalable partnership built on integrity. We don't just supply products; we provide the peace of mind that comes with consistent quality, competitive pricing, and a dedicated team focused on your long-term trade success.

THE QUEEN OF SPICES: CARDAMOM

At Evasya Trading & Exports Pvt Ltd, our cardamom is the cornerstone of our export portfolio. Sourced directly from the high-altitude plantations of the Western Ghats in Kerala—specifically the Idukki district—our green cardamom is world-renowned for its superior aroma, pods size, and intense essential oil content.

Product Catalogue

- 8mm+ Extra Bold: The highest tier, featuring massive, heavy pods with a deep green hue and maximum seed count.
- 7mm to 8mm Bold: Our most popular export grade, offering a perfect balance of size and value.
- Fruit Grade: Smaller pods that retain the same intense aroma, ideal for grinding into high-quality spice mixes.

- Tellicherry Extra Bold (TGEB): The highest quality grade, consisting of the largest, most mature berries (4.75mm+). These have a complex, mellow flavor with a balanced heat.
- Malabar Garbled (MG-1): A versatile, high-quality export grade that is thoroughly cleaned and sized, ideal for general culinary use and spice extraction.
- Tellicherry Special Extra Bold (TGSEB): Hand-selected 5mm+ berries for ultra-premium retail packaging and gourmet collections.

SUPERIOR ORIGIN: BLACK PEPPER

At Evasya Trading & Exports Pvt Ltd, our Black Pepper is sourced from the high-altitude plantations of the Western Ghats in Kerala, a region historically celebrated as the "Land of Spices." Known globally as "Black Gold," Kerala pepper is prized for its intense heat, complex floral notes, and high essential oil content.

Our pepper is primarily sourced from Idukki and Wayanad, regions famous for the Malabar Garbled (MG) and Tellicherry Extra Bold (TGEB) varieties. The unique soil composition and tropical climate of these highlands produce berries with a higher concentration of Piperine (5), the alkaloid responsible for the spice's signature pungency.

THE CROWN OF AROMATICS: CLOVES

At Evasya Trading & Exports Pvt Ltd, our cloves are sourced from the high-rainfall, high-altitude regions of the Western Ghats, particularly from the rich volcanic soils of Idukki and Kottayam. Known for their deep reddish-brown color and high oil content, Kerala cloves are a staple for premium spice blenders and pharmaceutical manufacturers worldwide. We take pride in delivering hand-picked, sun-dried cloves that retain their full aromatic potency from the farm to the final destination.

Product Catalogue

- Hand-Picked Selection (HPS): The premium grade, consisting of bold, full-headed cloves with no stems or "khoker" (headless) buds. These are ideal for gourmet retail and decorative culinary uses.
- Grade 1 (Standard Export): Well-dried, reddish-brown cloves with minimal headless buds. This grade is perfect for spice grinding and essential oil extraction.
- Cloves for Oil Extraction: High-oil content buds specifically selected for the flavor and fragrance industry, where the aroma profile is the priority.

JEWEL OF THE ORCHARD: NUTMUG

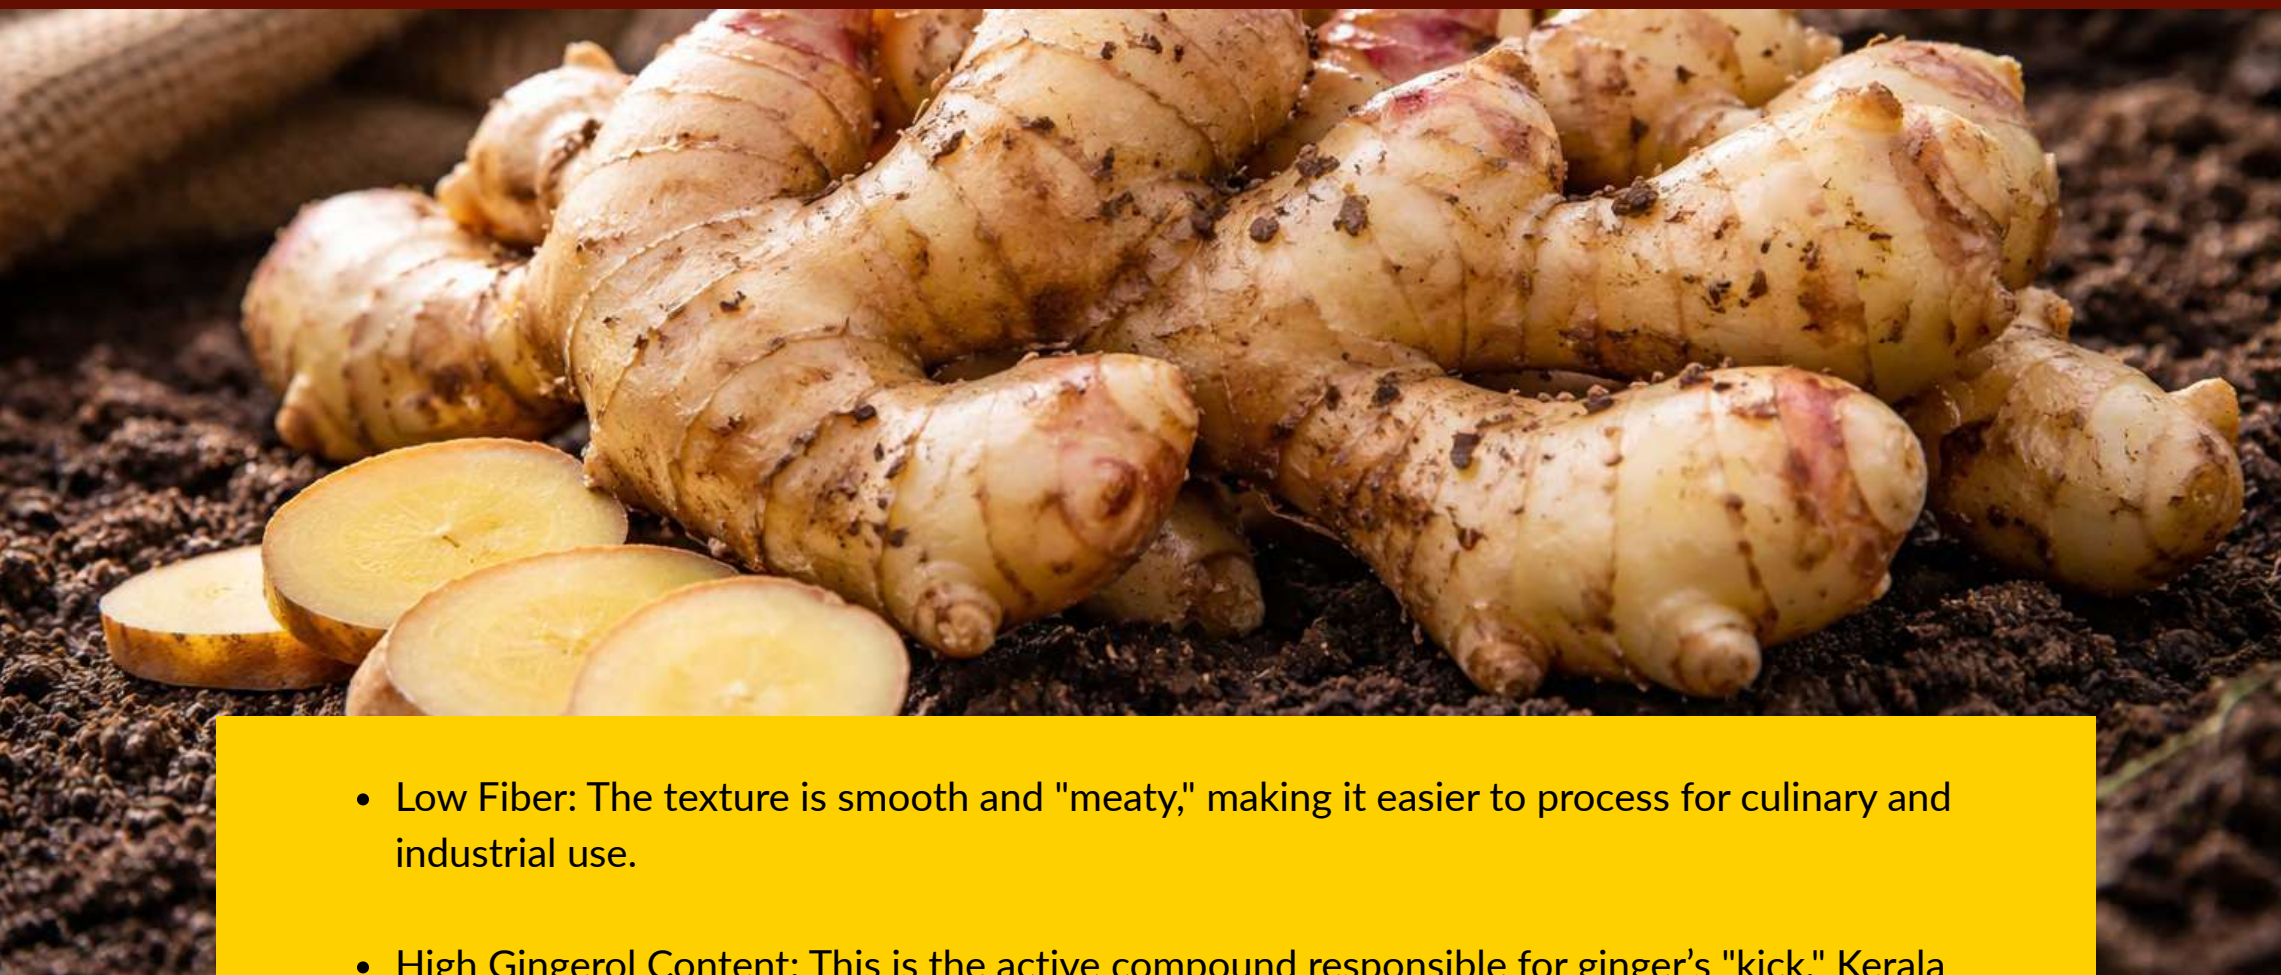

At Evasya Trading & Exports Pvt Ltd, our Nutmeg is the "Jewel of the Orchard." Sourced from the fertile, sun-drenched central plains of Kerala—particularly the Meenachil and Kanjirappally regions—our nutmeg is prized for its weight, high oil content, and deep, resonant aroma.

While the fruit yields both Nutmeg and Mace, we treat the Nutmeg (the seed) as a distinct, premium commodity, ensuring it is cured and graded to meet the most exacting international standards.

Product Catalogue

- ABCD Grade: The gold standard for export. These are large, whole, and heavy nuts with a smooth surface and no cracks.
- Shriveled/BWP (Broken, Wormy, Punky): We strictly separate these during our manual sorting process to ensure our premium export lots contain only high-density, "sinking" quality nuts.
- With-Shell Nutmeg: We offer nutmeg in its original woody shell, which acts as a natural protective chamber, preserving the volatile oils for maximum shelf life during long-distance transit.

- **Low Fiber:** The texture is smooth and "meaty," making it easier to process for culinary and industrial use.
- **High Gingerol Content:** This is the active compound responsible for ginger's "kick." Kerala ginger consistently tests high for pungency and medicinal properties.
- **Lemony Undertones:** Unlike bitter or overly earthy varieties, ours carries a bright, refreshing citrus note.

SIGNATURE KERALA GINGER

At Evasya Trading & Exports Pvt Ltd, our Ginger is a testament to the rich, volcanic soil of the Western Ghats. Kerala ginger, historically known as "Cochin Ginger," is globally recognized as one of the finest varieties due to its low fiber content, golden color, and a distinctively sharp, lemony aroma that sets it apart from more fibrous varieties.

We specialize in both fresh and dried ginger, ensuring the natural heat and medicinal potency remain intact from harvest to delivery.

GOLDEN SOUL: TURMERIC

- **Controlled Boiling:** The rhizomes are boiled in clean water to soften them and release the starch, which helps in uniform coloring.
- **Natural Sun-Drying:** We dry the turmeric on elevated platforms until the moisture level drops to a stable 10% to 11%, ensuring a crisp texture and long shelf life.
- **Lead-Free Guarantee:** We strictly prohibit the use of artificial coloring agents or lead chromate polishing. Our turmeric is 100% natural and food-safe.

At Evasya Trading & Exports Pvt Ltd, our Turmeric is the "Golden Soul" of our spice collection. Sourced from the mineral-rich soils of the Western Ghats and Northern Kerala, our turmeric is prized for its deep orange-gold color and, most importantly, its high Curcumin content. Unlike standard turmeric, our Kerala-origin varieties are grown in a tropical climate that naturally boosts the plant's therapeutic and aromatic properties.

GLOBAL SOURCING, LOCAL EXPERTISE: YOUR COMPLETE SPICE PARTNER

At Evasya Trading & Exports Pvt Ltd, we understand that global buyers need more than just a supplier—they need a versatile partner. While we are rooted in the premium spice lands of Kerala, our reach extends across India's most fertile agricultural zones.

"If it is a spice grown in India, we can source, grade, and export it to your exact specifications."

TRUST & RELIABILITY (THE EVASYA PROMISE)

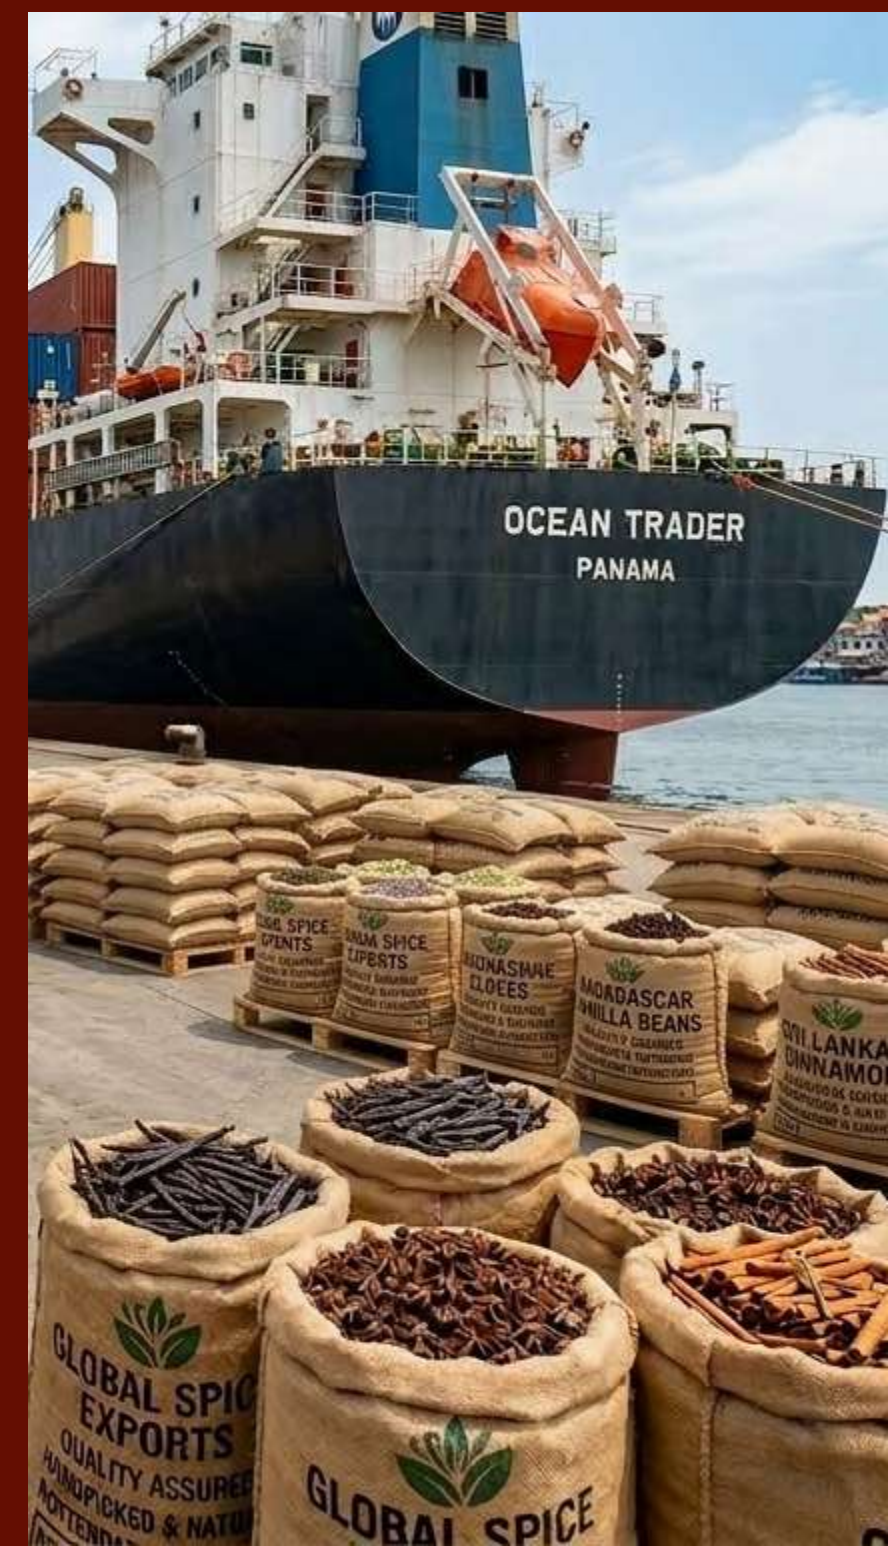

If it is grown in India, we can source it. We act as your boots-on-the-ground partner to find specific technical grades and varieties beyond our standard catalog.

We eliminate unnecessary middlemen by working directly with farmers and producer clusters, ensuring maximum freshness and fair pricing.

[Product Catalogue](#)

- **Technical Specifications:** We procure based on your specific lab requirements (Moisture, Oil content, SHU levels, or Curcumin percentages).
- **Consolidated Shipments:** We specialize in Mixed Container Loads (FCL/LCL), allowing you to combine multiple products into one efficient shipment.

- **Quality Assurance:** Every product undergoes rigorous cleaning, destoning, and grading to meet international safety standards (ESA/ASTA).
- **Versatile Packaging:** Flexible solutions from bulk 50kg bags to customized private-label retail packaging.

WHY EVASYA IS YOUR STRATEGIC PARTNER

Versatile sourcing for all other agricultural and spice requirements across India. Beyond our Kerala specialties, we act as a single-point procurement hub for a wide range of Indian produce. From Seed Spices (Cumin, Coriander, Fennel) and Red Chilies to Aromatic Barks and Grains, we source according to your specific lab requirements. We specialize in consolidated shipments, allowing you to mix multiple products into one efficient, export-ready container.

Market Intelligence	Origin Traceability	Purity Guarantee	Logistics Mastery
Real-time pricing and crop insights to help you make informed buying decisions.	Direct farm-links ensure freshness and transparent supply chains.	100% natural products with zero artificial dyes, fillers, or polishing agents.	Seamless export handling from India's major ports to your destination.

CONCLUSION

At Evasya Trading & Exports Pvt Ltd, we are more than just a supplier; we are your strategic partner in the global spice trade. By combining the ancestral heritage of Kerala's "Spice Coast" with modern, data-driven procurement and logistics, we ensure that the distance between the farm and your warehouse is bridged with absolute transparency. We invite you to experience the Evasya difference. Let us help you simplify your procurement with our consolidated shipping solutions and uncompromising quality standards.

LET'S CONNECT

At Evasya Trading & Exports Pvt Ltd, we believe that the strongest global partnerships are built on a foundation of transparency, shared growth, and uncompromising professional standards.

We are ready to act as your dedicated gateway to India's most fertile agricultural landscapes. Whether you are looking for a reliable long-term supplier, customized technical grading, or a streamlined logistics partner, our team is here to facilitate your success.
