

Since 1976

The Taste of Your Choice

Profile

The Company

Om Oil & Flour Mills Ltd. (RUCHI) is the leading manufacturer and exporter of quality Spices, Vermicelli, Pasta, Noodles, Cereals, Frozen Ready to Eat Products, Non CSD Beverages, Pickles, Bakery, Papad, Ready to cook Instant Mixes, Gravies and other food products in India. After a long journey of 44 years & hard struggle towards success, today RUCHI has made a name in every village & city of India. It has created a landmark in the history of Indian Industries as a leading quality food processing unit. In every kitchen of rural and urban parts of India, RUCHI products have found its own dignified position. RUCHI brand has got strong presence both in the domestic and global markets. The success behind the name of RUCHI is simply its quality and hard work of the management and employees since 1976.

Manufacturing Unit

Pasta Unit: RUCHI is one of the leading manufacturers and exporters of Pasta in India. The Pasta Manufacturing unit of RUCHI consists of a state-of-art fully automated plant based on Twin Technology from Italy & South Korea. With a manufacturing capacity of more than 2.5 T/hr and almost twenty different varieties and shapes of Pasta, RUCHI has become a trend-setter. This wide range of Pasta and huge production capacities have enabled us to have a very strong market presence globally. At present RUCHI has pressed into service hi-tech fully automated Italian machinery to produce world class Pasta.

Spices Unit: The Spices Unit being the oldest unit of RUCHI since 44 years has held a single motto "No compromise with Quality". With this motto, RUCHI has now found its place in each and every kitchen of India and abroad. Manufacturing of spices starts from its procurement. RUCHI takes utmost care in choosing from the best quality farms all its herbs, spices, condiments that retain the original aromatic savour. Its dry heat treated spices pass through various stringent quality parameters set by BIS and the American Spice Trade Association (ASTA). Various categories of physical, chemical & microbiological tests are being done in different phases such as raw material, in process samples & finished product to assure highest quality standards in every step.

RUCHI Food Craft Institute: A women self-help group involved in Research & Development of RTS (Ready-to-Serve) & RTE (Ready-to-Eat) food and Non-CSD beverages, has got acclamation & appreciation from the state government. With very few employees and automated packaging pilot machines, this unit is growing fast in achieving heights. The demand for RTS & RTE products in today's busy world enabled us to work on a new project for establishment of a fully automated unit for frozen food packaging & Beverage manufacturing.

Frozen Food Division: Since its inception in 1976, Om Oil & Flour Mills, the promoters of **RUCHI** brand of food products have strived to bring into every home the traditional Indian taste as well as the best of international cuisine. What started as an endeavour to assist the modern woman to replicate the taste of her grandmother and mother's recipe in the way of blended spices, moved onto introducing international food modified to suit the Indian palate.

We no longer restrict ourselves with only assisting you in replicating the taste of your favourite cuisine in your own kitchen. Now we let our customers, spread across the globe, savour the taste of authentic Indian cuisine and select international cuisine modified and given the 'twist of taste' the '**RUCHI way**'.

Our venture in '**Frozen Food**' items is none other than for working mother, the executive, the ever-burdened student, the friends out to have fun, the kids and all others including you and me. We have rolled out a wide range of food items from our kitchen including whole meals - biryani, fried rice, curries etc; bakery items; desserts - kheer, podapitha etc. There are prepared hygienically in our state of the art kitchen by expert chefs, packed, frozen and ready to throw into your kitchen under the brand '**FROZIT**'. All you need to do is take home the **FROZIT** of your choice and heat it before you enjoy.

Recognition & Certification

In recognition of the best quality of the products, SPICE HOUSE & AGMARK Certificates have been awarded to the company by the Govt. of India. We are ISO 22000:2005 certified company for implementation of the best food safety management system. Many more laurels & awards have been bagged by the company as a successful / proven enterprise, best food processing unit and best exporter from Govt. and other statutory organization. Dr. Sarat Kumar Sahoo, M.D of the company was the recipient of ODISHA CITIZEN AWARD-2012 for his outstanding contribution to industries & business sector.

Quality Control & Quality Assurance

The quality management system is based on ISO 22000:2005, HACCP, HALAL, AGMARK standards and has been modified to suit to the specific needs of various buyers. The success of the system has also resulted in continual improvements in workplace, health and safety at all levels of the company. State-of-the-Art laboratory is fully equipped with the latest instruments for testing of various quality parameters in spices, vermicelli, pasta & ready-to-eat items. RUCHI has been committed to innovations and high technological excellence to create a healthy world. As a customer driven quality, Ruchi Strictly follow GPP, GMP and GLP in accordance with HACCP & FSMS.

Packaging Superiority

We market acceptable & high quality spices and spice products. Before it reaches the sales counters or the consumer, we look into various factors.

1. Better Packaging using flexible films, thermoplastic polyester (PET), and multi layered packaging.
2. As a means of increasing the shelf-life of foods in general and of spices and condiments in particular, our packaging guidelines follow the world standard new and improved transparent plastic films, foils, laminations, high-speed film sealing machines, gas flushers for packaging of food, spices, condiments and new spice products.
3. We provide an endless variety of containers of thermoplastic polyester (PET); co extruded, metalised and coated films of all shapes and sizes for packaging.
4. Food grade plastic (HDPE).
5. Multi-layered films of HDPE are a good material to carry spices in most hygienic condition to users.
6. Vacuum packages, special 5 layered multifilm vacuum packs of different thickness for various applications in food.

Research & Development

The R&D department of the company plays an integral role in various product formulations & product development. The R&D team has excelled in formulating various products in Spices, Noodles, Health foods, Instant foods & other food products which are innovative in consumers world. These products are available in both bulk & consumer packs and have a high demand in Indian as well as Global markets.

Marketing Network

Our marketing network has established a reputation for delivering top class services through Distributor channels, Whole Selling, Super stockists, Mass Retailers, Co-op Societies, Institutional sales and retail sales. With over 200 dealers in Odisha and more than 40 super stockists all over the nation, RUCHI is royally building an active customer base pan India.

Transport

Our main objective is to provide optimum satisfaction to our customers in domestic and overseas markets by fully meeting their requirements in terms of quality, cost and delivery. The Transport Department of the Company has more than 40 vehicles for captive use ensuring delivery of goods to the customers at the right time and right place at its own cost. The vehicles are well maintained and properly cleaned before loading of goods. Adequate care is taken at the time of loading to prevent any damage to the goods. After completion of loading the vehicle is properly covered by tarpaulin to protect the goods from sun and rain. For delivery to outside states we are hiring the services of reputed Goods Transport Operators besides using our own vehicles having National Permit.
